	<b>Coaching Philosophy</b>			
<p>I believe in a firm but fun training environment that will develop individual skills both on and off the soccer field. I believe in a high pressure attack and defense and want all the boys comfortable with the ball at their feet. Conditioning is a high priority and just as important as any other soccer skill. I will help develop individual skills but firmly believe this is a team sport and must be played as such. I demand respect from all players to their Teammates, Coaches, Parents, and Referees at all times. We do play and train year around through Futsal, Corver and Surf training facility.</p>
