	<b>Coaching Philosophy</b>				

It's important to me that each girl gain confidence and enjoy the game of soccer. I intend to make sure each player gets what they need to grow their individual skills while learning to work as a team. Every player brings strengths to the team. I hope to provide a fun and positive team for the girls to lean and grow on. I will be teaching fundamental skills necessary to build a strong team. Mostly this will be taught through various games and skill building activities. Playing and working hard as a team can carry over into skills needed in everyday life. I hope all the girls will love the fun and energetic game of soccer.
