<b>Coaching Philosophy</b>				
<p>My focus with my student athletes is their long-term development and love of the game. I strive to make the learning environment challenging while still being comfortable and welcoming for players and their families. Each athlete can achieve great things if they are willing to learn and are open to coaching. I work to get the best out of every individual and help them enthusiastically enjoy the beautiful game of soccer. Cohesion as a team is imperative. While each player will have particular strengths, they will learn to appreciate and understand the duties of each role. Hard work and dedication is more often than not accompanied by positive results. I want to win, as we are in competition soccer however, success and failure is not just what is on the scoreboard.</p>
